with a new introduction by kelly link the locus award winning science fiction novel by legendary author ursula k le guin set in a world where one man s dreams rewrite the future during a time racked by war and environmental catastrophe george orr discovers his dreams alter reality george is compelled to receive treatment from dr william haber an ambitious sleep psychiatrist who quickly grasps the immense power

george holds after becoming adept at manipulating george s dreams to reshape the world haber seeks the same power for himself george with some surprising help must resist haber s attempts which threaten to destroy reality itself a classic of the science fiction genre the lathe of heaven is prescient in its exploration of the moral risks when overwhelming power is coupled with techno utopianism

george orr is a mild and unremarkable man who finds the world a less than pleasant place to live seven billion people jostle for living space and food but george dreams dreams which do in fact change reality and he has no means of controlling this extraordinary power psychiatrist dr william haber offers to help at first sceptical of george s powers he comes to astonished belief when he allows ambition to get the better of ethics george finds himself caught up in a situation of alarming peril

a placid and compassionate man discovers that he has extraordinary powers which could destroy the world

examines the themes of the major fantasy and science fiction of ursula k le guin and discusses her essays and poetry

typescript undated without music unmarked copy of a musical play with libretto by edward einhorn adapted from the book by ursula k le guin music by henry akona that opened june 6 2012 at three legged dog s facility 3ld art technology center 80 greenwich street new york n y verses from the tao te ching are interspersed as operatic art songs

ursula k le guin s the dispossessed is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political thought and literature and of science fiction published in 1974 it marked a revival of utopianism after decades of dystopian writing according to this widely accepted view the dispossessed represents a new kind of literary utopia which tom moylan calls a critical utopia the present work challenges this reading of the dispossessed and its place in the histories of utopian dystopian literature and science fiction it explores the difference between traditional literary utopia and novels and suggests that the dispossessed is not a literary utopia but a novel about utopianism in politics le guin s concerns have more to do with those of the novelists of the 19th century writing in the tradition of european realism than they do with the science fiction or utopian literature it also claims that her theory of the novel has an affinity with the ancient greek tragedy this implies that there is a conservatism in le guin s work as a creative writer or as a novelist which fits uneasily with her

personal commitment to anarchism
