this book provides a critical approach to research on the social acceptance of renewable energy infrastructures and on energy transitions in general by questioning prevalent principles and proposing specific research pathways and lines of inquiry that look beyond depoliticised business as usual discourses and research agendas on green growth and sustainability it brings together authors from different socio geographical and disciplinary backgrounds within the social sciences to reflect upon discuss and advance what we propose to be five cornerstones of a critical approach overcoming individualism and socio cognitivism repoliticisations recognising and articulating power relations for interdisciplinarity interventions praxis and political engagement with research and overcoming localism and spatial determinism as such this book offers academics students and practitioners alike a comprehensive perspective of what it means to be critical when inquiring into the social acceptance of renewable energy and associated infrastructures

this edited volume brings together critical research on climate change adaptation discourses policies and practices from a multi disciplinary perspective drawing on examples from countries including colombia mexico canada germany russia tanzania indonesia and the pacific islands the chapters describe how adaptation measures are interpreted transformed and implemented at grassroots level and how these measures are changing or interfering with power relations legal pluralism and local ecological knowledge as a whole the book challenges established perspectives of climate change adaptation by taking into account issues of cultural diversity environmental justice and human rights as well as feminist or intersectional approaches chapter 3 of this book is freely available as a downloadable open access pdf at [taylorfrancis.com](http://taylorfrancis.com) under a creative commons attribution non commercial no derivatives cc by nc nd 4.0 license

this comprehensive text makes an important contribution to the study of surrogacy developing a novel theoretical framework through which to understand the broader social contexts as well as individual decisions at play within surrogacy arrangements drawing on empirical research conducted by the authors and supplemented by secondary analyses of media legislative and public accounts of surrogacy the book engages with the key stakeholders involved in the practice of surrogacy specifically it canvases the standpoints of women who act as surrogates intending parents who commission surrogacy arrangements children born through surrogacy clinics that facilitate the arrangements and politicians and journalists who engage with the topic through a focus on capitalism as a means of orientating ourselves to the topic of surrogacy the book highlights the vulnerabilities that potentially arise in the context of surrogacy as well as the claims to agency invoked by some parties in order to mitigate vulnerability in so doing the book demonstrates that the psychology of surrogacy must be broadly understood as an orientation to particular ways of thinking about children reproduction and economies of labour

this volume was first published by inter disciplinary press in 2013 a critical approach to the apocalypse offers the reader an in depth view of the portrayal of apocalyptic and post apocalyptic scenarios in literature film and television art digital art history anthropology religion

and climate change studies

the past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of american law and the institutions of the liberal state in this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory the authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of american law should take writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory a third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views the resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice a common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting radical critiques of the law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

why do most neighbourhoods in the united states continue to be racially divided in this work author mara sidney offers a fresh explanation for the persistent colour lines in america s cities by showing how weak national policy has silenced and splintered grassroots activists

literary semiotics brings much needed revitalization to the conservatism of modern semiotic theory scott simpkins revisionist work scrutinizes the conflicting views on sign theory to identify new areas of development in semiotic thought and practice particularly in relation to literary theory focusing on the idea of semiotics as a conversation about sign theory and practice simpkins principally looks at the work of umberto eco while giving secondary attention to some of semiotics most influential commentators including deleuze and guattari lyotard foucault barthes kristeva and derrida as an engaged interrogation of the restraints on the practice of semiotics literary semiotics is a provocative study for semioticians literary theorists and scholars of cultural studies and a resource for students seeking a probing examination of the theory of signs
