in this profoundly uplifting book authors and sacred activists andrew harvey and chris saade call us to the next paradigm in human relations love connections that are solidly grounded in individual authenticity and passionately focused on service and solidarity rather than limiting their gaze to each other partners are invited to take their focus outward channeling their energies toward those causes that both unite them and transform the world we live in with love as the fuel for inspired action the relationship becomes a homage to sacred purpose finding its deeper meaning in its efforts to positively influence the planet there are many books that invite us to focus on love relationship its perils and delights its shadow and light as the place where meaningful change happens and there are others including some potent ones written by these two authors individually that invite us to unite our individual spiritual paths sacred purpose callings and the like with benevolent action but this is the first book that focuses on the next step the bringing together of sacred activism and love relationship evolutionary love relationships contains a powerful vision that offers humanity a path to coupledness not as a privatized escape or preoccupation but a path to evolve into dedicated activists whose combined purpose is to utilize their resources to help and sustain the planet and which does not forsake but includes the pleasure of personal fulfillment between the bonded pair they can enjoy the fullness of divine human love in the depths of their own personal relationship supporting each other's authenticity but also enjoy it in the ways that those healing depths make them powerful and strong and lucid and vibrant enough to go out into the world and pour their gifts out for the transformation of the planet what is really at stake is this if we continue to have a vision of relationship as purely personal purely private and something that we cultivate only for our own pleasure we will keep feeding the tragic narcissism that is now ravaging the planet on every level the real thrust and purpose and divine importance of relationship is to give us the fuel to take on the world to give us the passion to embrace the causes of justice to give us the energy to keep on pouring ourselves out for the transformation of the planet with a foreword by an uncommon bond author jeff brown this inspiring book shows us the way to turn our love relationship into a prayer for world transformation and not just a passive prayer but a prayer in action impassioning the world with a bonfire of sacred and benevolent activism that cannot be stopped this prayer may well save us

can poetry articulate something about love that philosophy cannot the form of love argues that it can in close readings

of seven metaphysical poems the book shows how poets of the early modern period and beyond use poetic form to turn philosophy to other ends in order not to represent the truth about love but to create a virtual experience of love in all its guises the form of love shows how verse creates love that can't exist without poetry's specific affordances and how poems can in their impossibility prompt love's radical re-imagining like the philosophies on which they draw metaphysical poems imagine love as an intense form of non-sovereignty of giving up control they even imagine love as a liberating bondage to a friend a beloved a saint a god or a garden yet these poems create strange striking versions of such love made in rather than through the devices structures and forces where love appears tracing how poems think kuzner argues requires an intimate form of reading close even too close attention to and thinking with the text showing how poetry thinks of love otherwise than other fields the book reveals how poetry and philosophy can nevertheless enter into a relation that is itself like love

solomon and higgins have chosen excerpts from the great philosophical texts and combined them with the most exciting new work of philosophers writing today it examines the mysteries of erotic love from a variety of philosophical perspectives and provides an impressive display of wisdom that the world's best thinkers have brought and continue to bring to the study of love
